

### **Digital Eyewitness G3 Packs Loads of Features Into a Compact Video System**

LENEXA, KANSAS—Kustom Signals, Inc. introduced the G3 in-car video system today at COPS West, adding to the company's comprehensive array of video products. The G3 offers control from either a Mobile Data Computer (MDC) or through the DVR/controller. Using the MDC allows the DVR to be mounted in the trunk, reducing the components that take up space inside the patrol vehicle. For added flexibility, using the DVR as a controller offers the option of replacing the factory rearview mirror with a Mirror Monitor, allowing the officer to view the scene being recorded. For additional information on the Digital Eyewitness G3 call 1-800-4KUSTOM or visit [www.kustomsignals.com](http://www.kustomsignals.com).

Established in 1965, Kustom Signals Inc., a Public Safety Equipment Company, designs and manufactures a complete line of speed enforcement, speed awareness and in-car video systems for law enforcement agencies.
