

Kustom Signals, Inc. Names Kulikowski President and CEO

Tom Kulikowski has been named President and CEO of Kustom Signals, Inc., a leading manufacturer of speed enforcement, speed awareness and in-car video systems for law enforcement and public safety agencies.

Kulikowski comes to Kustom Signals with over 20 years of progressive and diverse experience with Fortune 500, private equity backed, and foreign owned businesses. He most recently served as General Manager of Electrosonic Systems and prior to that served as Group President of Telex Communications, Inc. His early career included various engineering, sales, marketing and product management

roles with a global manufacturing focus.

Kulikowski earned his undergraduate degree in Engineering from Carnegie Mellon University and did his graduate studies in Business at Widener University.

He states, "Kustom Signals has built its reputation on an unwavering commitment to quality, a culture of customer service, industry leading innovation, an intensely dedicated, professional staff, and customer loyalty that spans more than four decades. This is an impressive foundation on which to continue to build a world class business. I am eager to lead this dynamic company to consistently higher levels of performance for our customers, employees, and investors."

Established in 1965, Kustom Signals Inc. is a Public Safety Equipment Company. Public Safety Equipment is also the parent company of Code 3, Inc.® in St. Louis, Missouri and Lasercraft, in Norcross, Georgia.
